

TECHNICAL SPECIFICATION

CSYS™ task lights provide powerful light, precisely where you need it. Heat pipe technology cools LEDs to sustain brightness for up to 144,000 hours.* Each light uses eight high-power cool white (4000K) LEDs, with glare-free conical reflectors. They surpass the IES task area illuminance requirements of 50 fc (US regulations).

With 3 Axis Glide™ motion, the lights move horizontally, vertically and through 360 degrees rotationally. A touch-sensitive precision dimmer remembers the most recent light setting.

To specify, state:

Desk mounted 4000K LED task light with Heat pipe cooling technology and 3 Axis Glide™ motion. Complete with touch sensitive and memory dimming.

*Calculated lifetime based on LED L70.

Electrical

Input voltage / Frequency: 100-240V, 50/60Hz

Rated power: System 11.5W

Power supply cord length: 98.4in (2.5m)

Optical

Light source: LED

Light output: 800 lm

Luminous efficacy: 70 lm/W

LED life time: 144,000hrs (Calculated lifetime based on LED L70)

Color temperature: 4000K (Please enquire for other CCT options)

CRI: Min 80

Standby power consumption: 0.3W

Beam angle: 68°

IP rating: Indoor use only

Operating temperature range: 34°F - 104°F

Construction

Materials: Aluminium / Copper / Steel / Polycarbonate Plastic

Operation

Touch sensitive dimming

Light level memory

Logistics

Net weight: 9.7lbs

Packaged weight: 13.7lbs

Packaged dimensions:

Polar plot

Product color

Black Black (BB)

Black Silver (BS)

White Silver (WS)

Standard warranty

2 years (parts only)
